c. Values

- We are oriented to supply excellent products and services through cutting-edge technologies
- We are determined in preserving and caring for the environment and our clients' confidentiality
- We listen to our customers and develop a strong and cooperative relationship with them
- Total Quality is our work method
- Customer satisfaction is our final goal.

d. Business goals & objectives

Corporate Vision and Mission derive from those that are the foundation of shared values that guide the activities of **ARAMART Group LLC** and form the basis of our way of being and working. People are the main and constant point of reference for our actions.

- **RESPECT:** colleagues, customers, suppliers, environment, rules and principles of working
- **PROACTIVITY:** in development and project management our capacity to anticipate events is crucial. We cannot wait and only solve problems when they appear. Anticipation give us a better future because we are building it by ourselves
- **INNOVATION:** innovation is everywhere we can reach, in technology and in organizations outside our company. To be innovative, we prepare the future, we solve problems and bring new solutions to customers.
- **COMMUNICATION:** relationships are the link between people, building webs. Building constructive relationships between us and with our customers is the foundation of success. Good relationships contribute to great environments to work together

In order to do so, we considerate it is important to cross Company Profiles with our clients to be able to start a long and fruitful relationship.

e. Business strategy

Companies have traditionally based their Sales strategies on the product. In **ARAMART LLC** we believe that this philosophy is finished. We think that success is only possible if companies undertake an organizational turn that puts all the focus on the CUSTOMER. Products and services can be copied and imitated. Customers cannot be. Only customers make a company unique and constitute its main ingredient.

Customers are about to get personal in their own ways, with their own tools. Soon consumers will be able to:

- Control the flow and use of personal data
- Build their own loyalty programs.

Our main letter of introduction to you is our experts and trained staff, who have many years of experience in handling multimodal shipments, operations and different activities previously mentioned. Personalized and above all, it will reassure you that your goods are being handled by trained and professional people within the branch of specialized logistics in the industrial branch.

Requisitions and manifests are generated from the interaction with the responsible, who visualizes and marks the necessary items. Once confirmed the requisition or manifesto, they are sent immediately to the corresponding approvals.

The whole process is recorded and archived for later consultation and can be followed by interested parties.

The fundamental basis of the service of handling a large amount of items & materials is their availability. To achieve this, it is required to store, transport and deliver in a safe and reliable way the items & materials with an emphasis in time management. It is due to the time factor that CUSTOMS matters have to be under control.

Business Concept

The basic concept behind our trust-based contracts is to carry out our assignments in collaboration with the customer. In this way the customer participates in the entire planning and production process and this mutual trust often creates long- term customer relationships. Our aim is to always attempt to surpass the expectations of the client. This is very important for us at **ARAMART LLC.**
